Project Name	Credit Card Approval Prediction
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings throughout the credit card application process. This helps identify pain points, understand user expectations, define process ownership, and discover opportunities to improve the overall experience by providing a faster, more accurate, and transparent credit card approval system

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	- Opens the application - Enters personal and financial details - Fills the credit card application form	- Reviews the entered information - Clicks the Predict button - Waits for the eligibility result	- Views the approval prediction - Reads the risk audit report - Understands the decision outcome
Touchpoint <i>What part of the service do they interact with?</i>	- Web Application Interface - Input Form Fields - User Dashboard	- Prediction Module - Machine Learning Model - Processing Screen	- Prediction Result Page - Risk Audit Report - Decision Summary

Customer Thought <i>What is the customer thinking?</i>	Curious, Hopeful "Is this application easy to use?" "Will my information be secure?" "Can I complete this quickly?"	"Will my application be approved?" "How accurate is the prediction?" "How long will it take?"	"Why was my application approved or denied?" "Can I trust this prediction?" "What should I improve next time?"
---	--	---	--

Customer Feeling <i>What is the customer feeling?</i>	Curious, Hopeful	Anxious, Expectant	Relieved, Informed
Process Ownership <i>Who is in the lead on this?</i>	User / Frontend System	Backend System / Machine Learning Model	User / Prediction System
Opportunities <i>How can we improve this stage?</i>	- Improve form usability - Add input validation - Provide tooltips for each field	- Reduce prediction time - Display loading indicator - Improve model performance	- Provide detailed recommendations - Save prediction history - Enable report download
